

## INDEX

<b>Chapter</b>	<b><u>Section - I</u></b>	<b>Page</b>
1.	EMI/EMC - An Overview	1
2.	Sources and Receptors of Electromagnetic Interference and their Susceptibility Criteria	22
3.	EMC Design	47
4.	Achievement of Operational Electromagnetic Compatibility and Spectrum Management	60
5	EMI Prediction and Analysis	79
6.	EMC Standards and Specifications and Basic EMI Measurement Techniques	112
7.	EMI/EMC Considerations in a Weapon System	180
	<b><u>Section - II</u></b>	
1.	Transients – Phenomenon	201
2.	Electrostatic Discharge (ESD)	218
3.	Electromagnetic Pulse (EMP)	243
4.	TEMPEST	251
5.	Radiation Hazard (RADHAZ) and Hazards of Electromagnetic Radiation on Ordnance (HERO)	255
6.	High Power Microwaves (HPM)	269
7.	EMC Standards and Importance of EMC in Commercial Market	276
8.	Commercial EMC Standards	282
9.	India's Approach to Electromagnetic Compatibility Standards and Specifications in View of Equipment Community Directives	289
